OFP-10

Flash Point Tester

▷ *OFP-10*

Flash Point Tester

- ASTM D92
- EN ISO 2592
- AASHTO T48
- IP 36

| PT 100 | Barometric Pressure | Ionization Detector | | Max 400° C |
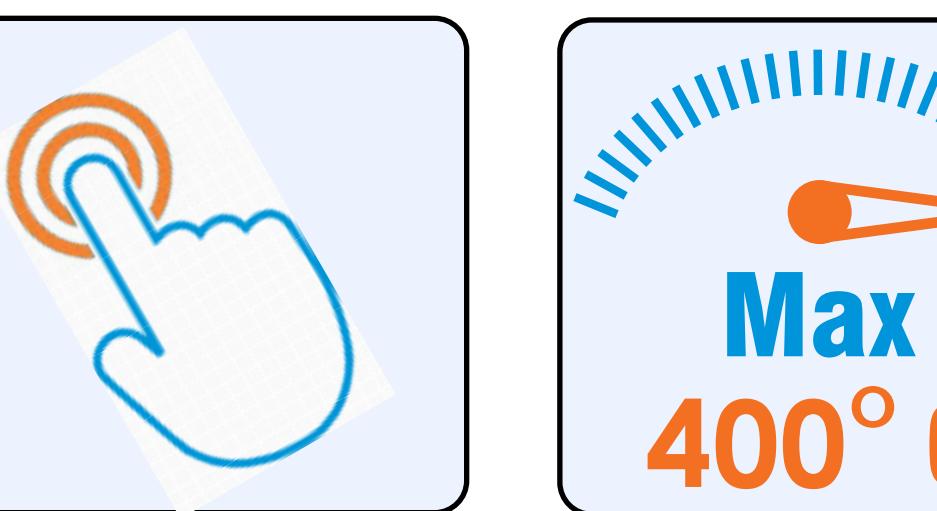

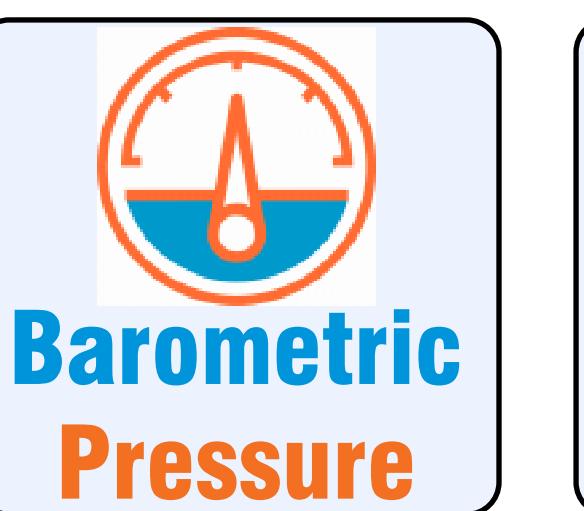

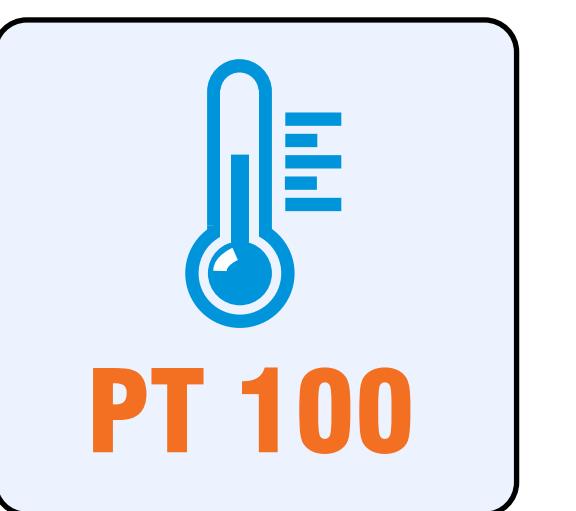

▷ Key Features — *OFP-10*

☐ Touch screen graphical display

☐ Alert for overheating and fault detection

☐ Pt100 Stainless Steel Probe

☐ Automatic detection of flash and fire point by ionization detector

☐ Lighting up the test flame automatically, relights it by an electric igniter and shut off the gas source at the end of the test

☐ Automatic correction of flash point temperature to barometric pressure

☐ Removable stainless steel cup holder compartment for safety and easy cleaning

☐ Spill-protected heating system

☐ Saving 500 test records

☐ Optional module for serial printer and wirless test monitoring
